

A Call to Action for Texas Patriots

Grassroots Campaign to Expose the “Enemies within Texas”

Foreword:

All hands on deck! Warning, Texas is in enormous trouble. Most residents do not know what Texas House District they actually live in or who is their state representative. They don't know how many State House Members or State Senators there are! They know little about our court system and how it is becoming weaponized against us, just like our DOJ and FBI. We have suffered a severe ***“liver punch”*** and didn't even know it. We are going to ***“peel back the curtain”*** to disclose what we have found, and we urge you to lay aside a dozen urgent works to consider the following dissertation.

There are many individuals that comprise our local and state government and we found behind the ***“curtain”*** there are some very determined enemies within our own state government and particularly in the Texas House of Representatives. If the citizens of Texas don't wake up and stop sitting on their hands, Texas ***will*** turn blue. If Texas turns blue, there are 25 to 40 “Republicans” that will then become Democrats. The consequences of this situation is exceptionally dire and cannot be understated and certainly not ignored.

If moral people do not take strong action, we will lose Texas. Everything you have, everything you are, and all that is dear to you is at great risk because if we lose Texas, the United States will be lost. Texas is teetering on the critical edge. We need fair-minded libertarians, independents and Democrats who care about their freedoms to become involved also.

The other side, and the people pulling their strings, have been very well funded, well organized, and quietly at work, undermining your freedom, day and night without any of us realizing it. It is said that ***“socialists never sleep”***. If good people don't vote for the right people, know for sure the opposition will not only cheat, but will show up in force and elect corrupt or evil people. How do you think we got the radical far-left activist judges and DAs in all the major counties? How has the Texas House of Representatives and our state government become controlled by far-left democrats?

For example, unknown to most of us, the elitist ruling class in the Texas House have supported the Texas Speaker of the House, a Nancy Pelosi like, Pro-Democrat, RINO Republican, named Dade Phelan. He has astonishingly appointed far-left Democrats to critical committee chairs and when Dan Patrick and the conservatives in the Senate send bills over, the Democrats kill it in the committees or water it down and pass it on with flowery names like ***“The Affordable Care Act”*** or ***“The Inflation Reduction Act”***.

Additionally, we face headwinds of control of the election fraud mechanism which was uncovered by Dr. Laura Presley in her Austin city Council race where incredibly her lawsuit to discover how she lost was dismissed by an activist judge and she was found in contempt of court and astonishingly fined \$11,000 if she appealed, and when the appeal failed, she then courageously appealed to the Supreme Court of Texas where she won and gained the right to have the voting machines forensically inspected and discovered software called ***“Fraction Magic”*** which she claims helps defeat patriotic, Texas first conservatives in the primaries and install RINOs to run and also support far-left Democrats in the general.

Shockingly, we face further attack in our judicial branch and are witnessing activist courts reversing our freedoms and blocking our progress. For example, the Texas Court of Criminal Appeals recently ruled that our Attorney General Ken Paxton could not investigate illicit election fraud unless it was initiated by the far-left Soros Democrat DA's first. You know this is never going to happen. And unbelievably, the treacherous Dade Phelan has selected a swamp ally to run against our most conservative Supreme Court justices, Justice John P. Devine. To lose Justice Devine would be catastrophic for Texas.

Most of our state appellate courts are already lost. We cannot let further corrosion and corruption of our state judiciary occur on our watch. We have witnessed in Washington DC how weaponized courts and law enforcement work firsthand.

The very first alarm bells rang out when we all received an emails from many of our house reps regarding a surprising vote for the impeachment of Attorney General Ken Paxton. Now, all of us are not complete fans of Ken Paxton but believe he is the most conservative Attorney General in the United States and was fighting the Texas and Washington establishment for our freedoms and conservative way of life. When reading these emails, most reps said: ***“it is not a decision I took lightly, I approached it with profound sense of responsibility, I found the evidence presented... was credible and compelling”***. Most of us thought, ***“oh wow!”*** and trusted what this email and our reps had alleged.

Now when the Senate trial came about and was posted on YouTube, Ken Paxton’s attorneys cross examined each of the witnesses in turn. All witnesses testified that there was ***zero*** evidence against Ken Paxton. This raised many concerns and started all of us thinking about the situation and looking into what’s going on in Texas. What we discovered was shocking and almost unbelievable.

Upon investigation we became aware that conservatives were pointing to George P. Bush and Speaker of the Texas House, Dade Phelan, and the secretive meetings with the House Leadership General Investigative Committee and wondered what was going on. So many of you may not be aware that George P Bush championed an idea with the United Nations to make the Alamo a ***“World Heritage Site”***.

But when we investigated the details, it was a proposed historical site with a monument that glorified Santa Anna as a hero and actually depicted the brave Alamo defenders, James Bowie, Davy Crockett, etc. as insurrectionists. This outraged the ***Daughters of the Alamo***, and they alerted us to this disastrous problem. The scheme proposed was once Ken Paxton was impeached, install George P. Bush as Attorney General of Texas but the conspirators needed help from Dade Phelan, the RINOs and the far left Democrats.

In October, a documentary called ***“The Texas Heist: Do the Democrats Control Texas?”*** came out and it became clear to all of us after hearing the comments by Matt Rinaldi that the freshman members of the house have their ***“orientation”*** and they are instructed to ***“fall in line”*** and would then ***“get committee assignments and plenty of support for their reelection”***. Stated differently, to go along and get along and become a member of the swampy club of elite leadership. Pay no attention to your constituents.

This accounts for all of the hundreds of thousands of dollars donated to so many other House members who voted for this scam witch-hunt impeachment of Ken Paxton, and had them all vote in lockstep with Dade Phelan and the far left Democrats.

We must put together a coalition of conservatives, Republicans and fair-minded Democrats, realize the peril we face, and work hand in glove to target each supporter of the enemies and ensure we get a conservative court and a super majority to help the new members get Texas back on track. Keep in mind the election fraud mechanism is controlled by the elitists and it will take a minimum of 5 to 8% over vote to overcome the fraud. Cheating true Texas first conservatives in the primaries one of the cabal’s prime objectives.

We propose a coalition of grassroots efforts to join forces and meet and strategize to spread our movement to all districts in Texas and ensure that our Supreme Court and Court of Criminal Appeals is protected.

We urge our connections to reach out in all directions and if anyone knows how to contact Ken Paxton, Dan Patrick, Michael Berry, Dinesh DeSousa, Ron Paul, Chris Salcedo, Grant Stinchfield, Glenn Beck, General Flynn, Patrick Byrne, Marcus Littrell, Chuck Norris, Mike Adams, Elon musk and any other high profile patriot, we urge you to contact us so we can forward information about our movement. Time is short.

We are working on supporting YouTube videos and a ***“Enemies Within The Texas House”*** website to share information and documents regarding every conservative challenger to incumbents in the primary and again after the primary in again the general election next November.

Only you can put a halt to this madness and protect your liberties and freedoms. You cannot sit idly by and you must become informed and involved, as much as possible, and most importantly you must come out with your friends in force, on March 5th, primary day. This is truly our ***Alamo***. This is our ***Thermopylae***. This is our ***battle of the bulge. This is our last stand!*** www.EnemiesWithinTheTexasHouse.com

Our Message to Concerned Patriot Conservatives in Texas

It is said to protect and preserve a Republic, it is essential for the electorate to be informed. For purposes of this discussion there are three “Camps”: Camp A), Camp B), and Camp C).

Camp A) are those highly informed individuals who have spent years doing their homework through extensive research into national politics and into the dangerous criminal cabal of international globalists who believe that the *“last obstacle to world peace”* is the **United States Constitution**. The *“uniparty”* conspirators refer to us as radical extremists because we expose their lies, deception and their true intent and use their own words and actions to prove our point. We would like to spotlight that a major goal by these conspirators is to turn Texas blue to solidify their power grab and uniparty rule. For more on Camp A), see our additional information page that goes with our footnotes.

Camp B) are those individuals who are open minded, clear thinking and the target of this document and often have very busy lives and perhaps don’t have the time to delve deeply into the great peril we face as a state and a nation and are mostly influenced by the narrative and statements made by politicians, and particularly our own representatives. Keep in mind that those who have the most to lose are usually doing the least to protect it. We urge you to lay aside a dozen urgent works to become informed and recognize the importance in the message were presenting to you. Please examine the case against Mano stated on the following page and investigate to see for yourself the facts presented.

Camp C) are those individuals who are brainwashed, close minded and will never investigate nor change their mind with any facts presented, under any circumstances. It’s only when a military boot crushes their chest will they realize their mistake and join the ranks of dissenters. However, in a future Marxist- Leninist America there will be no room for dissent, and it will then be too late.

in House District 133 all received an email from Mano DeAyala, our freshman representative, regarding his surprising vote for the impeachment of Attorney General Ken Paxton. Now, all of us are not complete fans of Ken Paxton but believe he the most conservative Attorney General in the United States and was fighting the Texas and Washington establishment for our conservative way of life. When reading the email, Mano said: *“it is not a decision I took lightly, I approached it with profound sense of responsibility, I found the evidence presented... was credible and compelling”*. Most of us thought, *“oh wow!”* and trusted what this email had alleged
